INITIATIVE FOR AIDS ORPHANS & VULNERABLE CHILDREN

Child Profiling Tool

The Bantwana Schools Integrated Program (BSIP)
Swaziland

2008

The **Bantwana Initiative for Orphans and Vulnerable Children**, an initiative supported by World Education, Inc. and John Snow, Inc. (JSI), helps communities expand and increase the quality of comprehensive services for orphans and other vulnerable children—and their households—in the communities where they live.

Building on effective community practices and aligning with national policy and programs, Bantwana builds the capacity of communities to find and create solutions to address the complex needs of vulnerable children living in their midst. Bantwana also links communities with policymakers and government officials to ensure common understanding and joint problem solving about how best to support these children. The **Child Profiling Tool** is designed to help look at critical aspects of child development in Swazi schools as part of the Bantwana Schools Integrated Program (BSIP). BSIP was launched in April 2008 with the aim to help children orphaned and made vulnerable by HIV and AIDS access the full range of support and comprehensive care they need to grow into healthy adults. The BSIP in Swaziland works to support school committees and schools to provide a range of comprehensive services for vulnerable children. The program also works to strengthen the capacity of schools, communities, and caregivers to provide and advocate for children.

This tool helps collect information from children who are BSIP beneficiaries related to all aspects of child welfare, including:

- Demographic information
- Health and basic needs
- Education and socioeconomic status
- Psychosocial support
- Risky behaviors, abuse
- HIV knowledge

A full report of the initial child profiling study conducted by Bantwana in 2009 can be requested at **www.bantwana.org**.

WELCOME/INTRODUCTION

Read:

Thank you for agreeing to participate in this interview. My name is _____ and I am volunteering with Bantwana.

The purpose of this interview is to better understand important aspects of your life in this area and to know how local programs can be most useful for you and other young people living here. The interview will take between 45 minutes and 1 hour.

I will read the questions on this survey and will mark down your answers. You do not have to answer all questions if you would prefer not to. You can stop at any time of the interview if you become tired or decide you don't want to continue. Everything that you tell us in this study is **confidential,** meaning that we will not tell anyone about your answers unless you say that we can, or unless we think that you or someone else might be in danger. Specifically, if you tell us that you or others are at risk of being harmed, we cannot keep that information private and we will take steps to make sure that all people involved are kept safe. We will not use your name or other identifying information in any of the reports or summaries of our conversation today.

Remember, this is your time and we want to hear from you. There are no right or wrong answers. The answers you provide in this interview will in no way affect the support you are currently receiving or will receive in the future, so please feel comfortable to talk about your thoughts, feelings, and experiences openly.

Thank you again for helping us with this important project. By sharing your ideas today, we hope to improve our programs for young people in the future. Now, let's get started.
