

# World Education

Engage, Educate, Inspire

## Strengthening Education and Improving Lives Around the World

We are dedicated to improving people's lives around the world through greater health, education, and socioeconomic equity for individuals and communities.

### What do we do?

We work to improve the education, social, and economic security of people worldwide by strengthening the capacity of local partners and systems. We focus on literacy, access to education for women and girls, community engagement, and conflict resolution to increase the quality and equity of education systems.

### How do we do it?

We are leaders in building the skills, talents, and resources of local entities so that they can accomplish their missions. Our programs take into account cultural, linguistic, geographic, and economic contexts, to support local management and promote long-term partnerships among local organizations. We ensure that people around the world have access to learning — regardless of their age, gender, race, or sexual orientation.

### Our Expertise

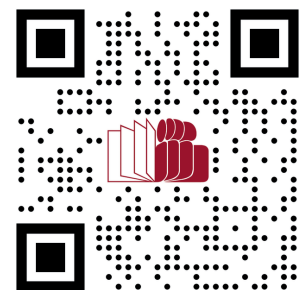

- Alternate Education
- Capacity Development
- Community Engagement
- Digital Solutions
- Early Childhood Development
- Economic Strengthening
- Girls and Women's Education
- Life Skills Education
- Monitoring, Evaluation & Research
- Primary and Secondary Education
- Safeguarding & Children Education
- School Governance
- Vulnerable Children, Youth & Families
- Youth Empowerment

#### The EdTech Center

The EdTech Center @ World Education advances digital equity to enable everyone to thrive as learners, workers, family and community members in today's digital world. In the US, we support organizations to leverage technology to increase the reach and impact of adult education, workforce & social impact initiatives.

#### The Bantwana Initiative

The Bantwana Initiative of World Education works with governments, local organizations, and communities in sub Saharan Africa to provide comprehensive health, education, and economic strengthening supports that improve the wellbeing of children and families affected by HIV.
